

Watershed Outreach Program Activities

Last Updated Friday, 30 June 2006

School- Based WatershED Outreach Program

The Watershed Outreach Program provides a simple, free, fun way to include new lesson plans in your classroom curricula. The water-related activities, programs and resources provided can help you achieve higher academic standards.

Use this site to find fascinating, hands-on programs, activities and resources. Explore the Boulder Creek Watershed with your students as you teach them to protect and conserve Boulder's precious water resources.

Add a splash of science to your students' day. Sign up for FREE, fun, standards-based classroom programs and field activities offered year round. For more information, visit the WASH Web site.

Watershed Outreach Program Activities

WatershED Resource Guide

Training program for teachers wishing to implement the WatershED curriculum into their classroom curriculum. This award-winning WatershED curriculum "localizes" water information and includes information on community projects.

Childrens' Water Festival - May 16, 2006

Annual event for BVSD fifth grade students sponsored by the city of Boulder, the Northern Colorado Water Conservancy District, the CU Office of Community Relations and the Bureau of Reclamation.

Boulder Creek Interpretive Trail Guide,

"Water Critters and More"

Trail guide complete with information about Boulder Creek and the animals that live in and around it. The guide includes extension activities for your classroom.

Classroom Presentations

Boulder Creek Watershed Virtual Tour

Water Conservation

Drinking Water/Source Water Protection

Stormwater/Pollution Prevention

Watershed Mode (pollution sources and pollution prevention)

Creek Critters Puppet Show

Follow along the Boulder Creek Watershed from the high mountain streams to the confluence with the St. Vrain. Learn why clean water is important to Boulder Creek Critters and how you can help protect and conserve water.

The puppet show is sponsored by WASH communities, the U.S. Geological Survey and Roche Colorado Corporation

Water Resources Library

Children's Literature, Teacher Resource Guides, videos, water quality testing kits, aquatic insect study equipment and more are available for check out.

To request a bibliography of children's literature on water conservation, contact us at rosatoc@bouldercolorado.gov

Community Service

Storm Drain Stenciling Program

Stream Teams

Creek Clean Ups

Science Fair Project Support

Are your students looking for ideas and resources regarding the water cycle, pollution, conservation, source water protection, and/or quality? We can share some ideas, connect students with local scientists, and assist students as they develop their projects.

Basin Web Site

This Web site includes the WatershED curriculum and comprehensive information about the Boulder Creek Watershed, past and present.
